

TE TestEquity

NEW LINE OF MULTIMETERS FROM

TECHNI-PRO

ENGINEERED FOR PERFORMANCE.

Meet the newest member of the **Techni-Pro** product family and part of our exclusive private label offering. The **Techni-Pro** multimeter range is available and in stock now, delivering exceptional quality with competitive pricing and innovative features suitable for a wide variety of field applications. Select from a complete line of seven models — including our True RMS Digital Compact Multimeter — as well as a coordinating line of accessories, clips, test leads and more. What are you waiting for?

Techni-Pro multimeters were built to withstand the rigors of demanding electrical environments. The new line of multimeters feature a rugged, water-resistant double-molded plastic housing, providing durability and longevity.

You can trust **Techni-Pro** for a wide range of applications, ensuring safety and accuracy in your measurements.

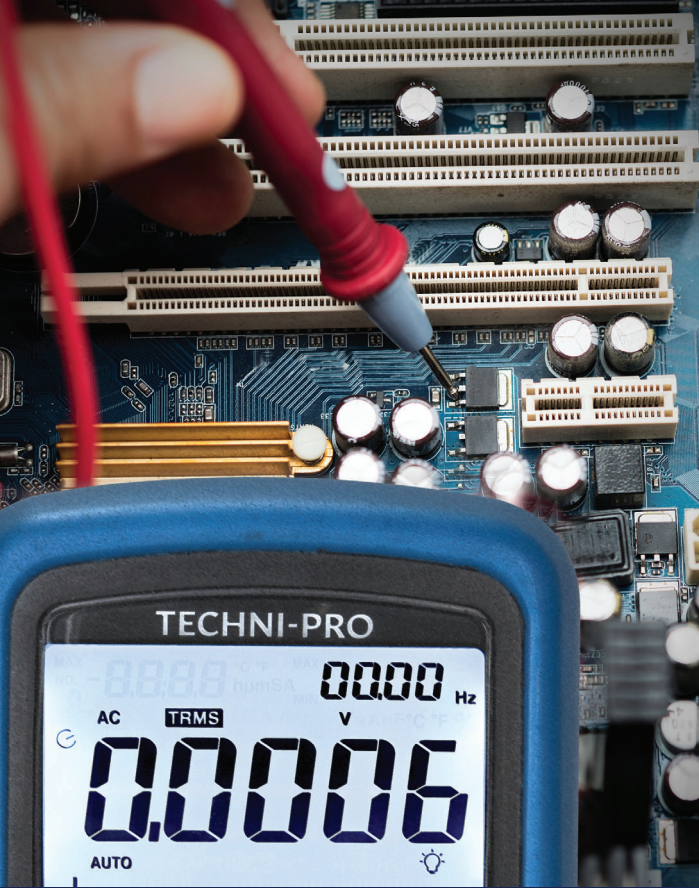

*Better performance,
better price tag.*
